Index to Volume XLVII

Journal of Heredity, 1956

A

Academic Origin of Drosophila Workers in the United States, J. Alfred Chiscon, 292.
Actions of Radiations on Living Cells, (Rev.), W. Ralph Singleton, 34.
Alfalfa, see *Plant Genetics.*
Anderson, Ruth S. *et al.*, Hereditary Spherocytosis in Peromyscus, 225.

Animal Genetics:
Beetle: Elaterid, spermatogenesis, 3; flour, supernumerary chromosomes, 157.
Black fly, siblings, sex and species grouping, 113.
Cat: male tortoiseshell, 237; 287.
Cattle: breeding beef cattle for unfavorable environments, (Rev.), 35; same dwarf gene for Hereford, Aberdeen-Angus and other breeds, 107; underdeveloped mandible in dairy shorthorns, 165; Red Dane and Red Poll crosses, 213; crossbred dwarfs, 245.
Diabrotica, status of supernumerary chromosomes after a lapse of fifty years, 157.
Dog, photoperiodic control of estrus in Basenjis, 179.
Dove, silky plumage, 37.
Drosophila: pupal lethals, 21; normal interchromosomal crossover relationships, 132; academic origin of Drosophila workers in U. S., 292.
Housefly: DDT-resistance of an inbred line, 11.
Frog: mutant color patterns, 79.
Fowl: second diplopod mutation, 57; woolly feathering, 137; turkey hybrids, 143; selection for thyroid weight, 211; mosaic affecting the down, 215; inherited muscle abnormality, 248.
Mice: whiteside mutation in Peromyscus, 29; no cleft palates in offspring of pregnant mice given cortisone after fetal palate closure, 99; hair loss in tufted mutant, 101; steel, a new dominant gene, 123; activity differences in five inbred strains, 147; polydactylous, 181; effects of infrared and x-radiation on a transplantable tumor, 188; brachydacytylous, 200; extreme non-agouti mutant, 221; hereditary spherocytosis, 225; new luxoid mutant, 277; linkages of hydrocephalus, 302.

Asmundson, V. S.: *et al.*, Turkey Hybrids, 143; and L. M. Julian, Inherited Muscle Abnormality in the Domestic Fowl, 248.
Asynapsis and Plasmodial Microsporocytes in Maize Following X-irradiation of the Pollen, D. T. Morgan, Jr., 269.

B

Barley, see *Plant Genetics.*
Basic Numbers in the Polyploidy of *Saccharum*, Ichizo Nishiyama, 91.
Bean Interspecific Hybrid, Shigemi Honma, 217.
Black Flies: Siblings, Sex and Species Grouping, K. H. Rothfels, 113.

Books Reviewed:
Crowe, F. W., W. J. Schull and J. V. Neel, A Clinical, Pathological and Genetic Study of Multiple Neurofibromatosis, 122.
Dobzhansky, Theodosius, The Biological Basis of Human Freedom, 284.
Lea, D. E., Actions of Radiations on Living Cells, 34.
Reed, Sheldon C., Counseling in Medical Genetics, 36.
Rhoad, Albert O., (Ed.), Breeding Beef Cattle for Unfavorable Environments, 35.

Brachydactylia in Mice, Lawrence B. Hardy and Leonell C. Strong, 200.
Breeding Beef Cattle for Unfavorable Environments, (Rev.), Bruce L. Warwick, 35.
Brewbaker, J. L. and H. L. Carnahan, Leaf Marking Alleles in White Clover, Standard Nomenclature, 103.
Britton, Donald M. and J. W. Hull, Mitotic Instability in Blackberry Seedlings from Progenies of Boysen and of Young, 205.
Burris, Martin J. and B. M. Priode, Crossbred Dwarfs in Beef Cattle, 245.

C

Carnahan, H. L. and J. L. Brewbaker, Leaf Marking Alleles in White Clover, Standard Nomenclature, 103.
Carroll, F. D. and P. W. Gregory, Evidence for the Same Dwarf Gene in Hereford, Aberdeen-Angus and Certain Other Breeds of Cattle, 107.
Cat, see *Animal Genetics.*
Cattle, see *Animal Genetics.*
Chemogenesis?' (Exc.), 32.
Chiscon, J. Alfred, The Academic Origin of Drosophila Workers in the United States, 292.
Clark, Gordon M., Effects of Infrared and X-radiation on a Transplantable Tumor of Mice, 188.
Clark, Karin H. *et al.*, No Cleft Palates in Offspring of Pregnant Mice Given Cortisone After Fetal Palate Closure, 99.

Colchicine-Induced True Breeding Chimeral Sectors in Flax, V. A. Dirks, J. G. Ross and D. D. Harpstead, 229.
Cook, A. C. *et al.*, Results from Crossing Red Dane and Red Poll Cattle, 213.
Cope, W. A. and C. H. Hanson, A Dwarf Mutation in Sericea Lespedeza, 155.
Cotton, see *Plant Genetics.*
Counseling in Medical Genetics, (Rev.), Eldon J. Gardner, 36.
Crossbred Dwarfs in Beef Cattle, Martin J. Burris and B. M. Priode, 245.
Cytological and Genetical Effects of the Defoliant Endothal, S. M. Wilson, Arlyn Daniel and G. B. Wilson, 151.
Cytological Studies of Chromosomes of Rust Fungi, R. C. McGinnis, 255.

D

Daniel, Arlyn, *et al.*, Cytological and Genetical Effects of the Defoliant Endothal, 151.
Dawson, W. M. *et al.*, Results from Crossing Red Dane and Red Poll Cattle, 213.
Deafmutism in Two Pairs of Identical Twins, Richard H. Post and Louise A. Hopkins, 88.
Dermen, Haig, Histogenetic Factors in Color and Fuzzless Peach Sports, 64.
Description of Polydactylism in Mice, Richard J. Engel, 181.
Dirks, V. A. *et. al.*, Colchicine-Induced True-Breeding Chimeral Sectors in Flax, 229.
Dodson, Edward O., Hereditary Absence of Radius and Thumb, 275.
Drosophila, see *Animal Genetics.*
Dwarf Mutation in Sericea Lespedeza, C. H. Hanson and W. A. Cope, 155.

E

Effect of Varietal Mass on Percentage of Outcrossing in *Gossypium hirsutum* in New Mexico, Paul A. Fryxell, 299.
Effects of Infrared and X-radiation on a Transplantable Tumor of Mice, Gordon M. Clark, 188.
Eitingen, G., Russian Reaction to Luther Burbank, (Exc.), 54.
Engel, Richard J., A Description of Polydactylism in Mice, 181.
Evidence for the Same Dwarf Gene in Hereford, Aberdeen-Angus and Certain Other Breeds of Cattle, P. W. Gregory and F. D. Carroll, 107.
Extreme Non-Agouti Mutant in the Mouse, W. F. Hollander and John W. Gowen, 221.

F

First International Congress of Human Genetics, 87.
Flax, see *Plant Genetics.*
Flesh-Color Chimera in the Peach, A. F. Yeager and E. M. Meader, 77.
Flower Color Inheritance in the *Mimulus cardinals* Complex, Robert K. Vickery, Jr., and Richard L. Olson, 195.
Fowl, see *Animal Genetics.*
Fraccaro, M., Frequency of Multiple Births in Pavia in the 16th and 17th Century, 111.
Fraser, F. C. *et al.*, No Cleft Palates in Offspring of Pregnant Mice Given Cortisone After Fetal Palate Closure, 99.
Frequency of Multiple Births in Pavia in the 16th and 17th Century, M. Fraccaro, 111.
Fryxell, Paul A., Effect of Varietal Mass on Percentage of Outcrossing in *Gossypium hirsutum* in New Mexico, 299.
Fuller, John L., Photoperiodic Control of Estrus in the Basenji, 179.

G

Gardner, Eldon J., Counseling in Medical Genetics, (Rev.), 36.
Genes and Culture, (Rev.), J. L. Lush, 284.
Genetics of DDT-Resistance of an Inbred Line of Houseflies, Elizabeth Thomas Lichtwardt, 11.
Glass, Bentley, The Hazards of Atomic Radiations to Man—British and American Reports, 260.
Goodwin, Kenneth A., Mosaic Affecting the Down of the Chick, 215.
Gowen, John W. and W. F. Hollander, An Extreme Non-Agouti Mutant in the Mouse, 221.
Grant, H. T., Underdeveloped Mandible in a Herd of Dairy Shorthorn Cattle, 165.
Gregory, P. W. and F. D. Carroll, Evidence for the Same Dwarf Gene in Hereford, Aberdeen-Angus and Certain Other Breeds of Cattle, 107.

H

Hafen, L. and E. C. Stevenson, A Stamenless Tomato Mutant with Abnormal Corolla, 297.
Hanson, C. H. and W. A. Cope, A Dwarf Mutation in Sericea Lespedeza, 155.
Hardy, Lawrence B. and Leonell C. Strong: Brachydactylia in Mice, 200; A New "Luxoid" Mutant in Mice, 277.
Harpstead, D. D. *et al.*, Colchicine-Induced True-Breeding Chimeral Sectors in Flax, 229.
Hazards of Atomic Radiations to Man—British and American Reports, Bentley Glass, 260.
Hepler, P. R. and A. E. Thompson, Rust Pustule Development on Chlorophyll-Deficient Asparagus Mutants, 234.
Hereditary Absence of Radius and Thumb, Edward O. Dodson, 275.
Hereditary Hair Loss in the Tufted Mutant of the House Mouse, Mary F. Lyon, 101.
Hereditary Spherocytosis in Peromyscus, R. R. Huestis, Ruth S. Anderson and Arno G. Motulsky, 225.
Histogenetic Factors in Color and Fuzzless Peach Sports, Haig Dermen, 64.

Hollander, W. F., and John W. Gowen, An Extreme Non-Agouti Mutant in the Mouse, 221.
Honma, Shigemi, A Bean Interspecific Hybrid, 217.
Hopkins, Louise A. and Richard H. Post, Deafmutism in Two Pairs of Identical Twins, 88.
Huestis, H. H. *et al.*, Hereditary Spherocytosis in Peromyscus, 225.
Hull, J. W. and Donald M. Britton, Mitotic Instability in Blackberry Seedlings from Progenies of Boysen and of Young, 205.

Human Genetics and Eugenics:
Atomic radiation: resolution of the congress of human genetics, 247; hazards to man, 260.
First international congress, 87.
Hand, hereditary absence of radius and thumb, 275.
Medical genetics, counseling, (Rev.), 36.
Multiple births, frequency in the 16th and 17th century, 111.
Multiple neurofibromatosis, (Rev.), 122.
Tongue characters in 72 pairs of negro twins, 17.
Twins: tongue characters in 72 negro pairs, 17; deafmutism in two pairs of identical, 88.

I

Inheritance of Behavior: Activity Differences in Five Inbred Mouse Strains, William R. Thompson, 147.
Inheritance of Leaf Shape in Kenaf, J. Frank Joyner and James B. Pate, 199.
Inheritance of Resistance to Pink Root in the Onion, Henry A. Jones and Bruce A. Perry, 33.
Inherited Muscle Abnormality in the Domestic Fowl, V. S. Asumndson and L. M. Julian, 248.
Intra-species Relationships and Lysenko's Concept of a Species, Constantine Sorokin and W. Gordon Whaley, 41.
Ishihara, Takaaki and Taku Komai, On the Origin of the Male Tortoiseshell Cat, 287.

Morgan, Walter and D. G. Jones, Woolly Feathering in the Fowl, 137.
Mosaic Affecting the Down of the Chick, Kenneth Goodwin, 215.
Motulsky, Arno G. *et al.*, Hereditary Spherocytosis in Peromyscus, 225.

Multiple Neurofibromatosis, (Rev.), Ntinos C. Myrianthopoulos, 122.
Mutant Color Patterns in Leopard Frogs, E. Peter Volpe, 79.
Myrianthopoulos, Ntinos C., Multiple Neurofibromatosis, (Rev.), 122.

N

New "Luxoid" Mutant in Mice, Leonell C. Strong and L. B. Hardy, 277.
Nilan, R. A. and C. C. Moh, Reduced Gene Transmission in Radiation-Induced Mutant Barley, 129.
Nishiyama, Ichizo, Basic Numbers in the Polyploidy of *Saccharum*, 91.
No Cleft Palates in Offspring of Pregnant Mice Given Cortisone After Fetal Palate Closure, Daphne G. Trasler, Karin H. Clark and F. C. Fraser, 99.
Normal Interchromosomal Crossover Relationships in *Drosophila melanogaster*, H. H. Kramer and E. B. Lewis, 132.

O

Olson, Richard L., and Robert K. Vickery, Jr., Flower Color Inheritance in the *Mimulus cardinalis* Complex, 195.
Onion, see *Plant Genetics*.
On the Origin of the Male Tortoiseshell Cat, Taku Komai and Takaaki Ishihara, 287.

P

Pate, James B. and J. Frank Joyner, The Inheritance of Leaf Shape in Kenaf, 199.
Perry, Bruce A. and Henry A. Jones, Inheritance of Resistance to Pink Root in the Onion, 33.
Phillips, Rita J. S., The Linkages of Congenital Hydrocephalus in the House Mouse, 302.
Photoperiodic Control of Estrus in the Basenji, John L. Fuller, 179.

Plant Genetics:
Alfalfa, somatic flower color mutations, 171.
Asparagus, rust pustule development on chlorophyll-deficient mutants, 234.
Barley, reduced gene transmission in radiation-induced mutants; 129.
Bean, interspecific hybrid, 217.
Blackberry, mitotic instability in progenies of Boysen and Young, 205.
Clover, white, standard nomenclature for leaf marking alleles, 103.
Cotton, effect of varietal mass on percentage of outcrossing, 299.
Endothal, cytological and genetical effects on *Allium cepa*, *Vicia faba* and *Pisum sativum*, 151.
Flax, colchicine-induced true-breeding chimeral sectors, 229.
Intra-species relationships and Lysenko's concept of a species, 41.
Kenaf, inheritance of leaf shape, 199.
Maize, x-ray induced asynapsis and plasmodial microsporocytes, 269.
Mimulus cardinalis, flower color inheritance, 195.
Naranjilla, translocation, 19.
Onion, resistance to pink root, 33.
Peach: histogenetic factor in color and fuzzless sports, 64; flesh-color chimera, 77.
Rust fungi, cytological studies, 255.
Saccharum, basic numbers in polyploid, 91.
Sericea lespedeza, dwarf mutation, 155.
Serratia marcescens, white mutants, 85.
Sesame, fertile autotetraploids, 241.
Tomato, stamenless mutant, 297.

Post, Richard H. and Louise A. Hopkins, Deafmutism in Two Pairs of Identical Twins, 88.
Priode, B. M. and Martin J. Burris, Crossbed Dwarfs in Beef Cattle, 245.
Production of Fertile Autotetraploids in Sesame, R. N. Srivastava, 241.
Pupal Lethals in *Drosophila melanogaster*, Frank Seto, 21.

R

Reanalysis of the Problem of the Male Tortoiseshell Cat, Lucian M. Sprague and Clyde Stormont, 237.
Reduced Gene Transmission in Radiation-induced Mutant Barley, C. C. Moh and R. A. Nilan, 129.
Resolution of the Congress of Human Genetics, 147.
Results from Crossing Red Dane and Red Poll Cattle, E. W. McComas, A. C. Cook and W. M. Dawson, 213.
Ross, J. G. *et al.*, Colchicine-Induced True-Breeding Chimeral Sectors in Flax, 229.
Rothfels, K. H., Black Flies: Siblings, Sex, and Species Grouping, 113.
Russell, Liane B. and Patricia A. Sarvella, Steel, a New Dominant Gene in the House Mouse, 123.
Russian Reaction to Luther Burbank, (Exc.), G. Eitingen, 54.
Rust Pustule Development on Chlorophyll-Deficient Asparagus Mutants, A. E. Thompson and P. R. Hepler, 234.

S

Sarvella, Patricia: Translocation in Naranjilla, an Ecuadorian Solanaceous Fruit, 19; and Liane B. Russell, Steel, a New Dominant Gene in the House Mouse, 123.
Second Diplopod Mutation of the Fowl, Walter Landauer, 57.
Selection for Thyroid Weight in New Hampshire Chickens, William E. Shaklee and C. W. Knox, 211.
Seto, Frank, Pupal Lethals in *Drosophila melanogaster*, 21.
Shaklee, William E. and C. W. Knox, Selection for Thyroid Weight in New Hampshire Chickens, 211.

Silky Plumage in the Ring Neck Dove, Wilmer J. Miller, 37.
Singleton, W. Ralph, Actions of Radiations on Living Cells, (Rev.), 34.
Smith, Stanley G.: Spermatogenesis in an Elaterid Beetle, 3; The Status of Supernumerary Chromosomes in Diabrotica After a Lapse of Fifty Years, 157.
Somatic Flower Color Mutations in Alfalfa, Karlis Lesins, 171.
Sorokin, Constantine and W. Gordon Whaley, Intra-species Relationships and Lysenko's Concept of a Species, 41.
Spermatogenesis in an Elaterid Beetle, Stanley G. Smith, 3.
Sprague, Lucian M., and Clyde Stormont, A Reanalysis of the Problem of the Male Tortoiseshell Cat, 237.
Srivastava, R. N., Production of Fertile Autotetraploids in Sesame, 241.
Stalin and Michurinist Agrobiology, (Exc.), T. D. Lysenko, 56.
Stamenless Tomato Mutant with Abnormal Corolla, L. Hafen and E. C. Stevenson, 297.
Status of Supernumerary Chromosomes in Diabrotica After a Lapse of Fifty Years, Stanley G. Smith, 157.
Steel, a New Dominant Gene in the House Mouse, Patricia A. Sarvella and Liane B. Russell, 123.
Stevenson, E. C. and L. Hafen, A Stamenless Tomato Mutant with Abnormal Corolla, 297.
Stormont, Clyde and Lucian M. Sprague, A Reanalysis of the Problem of the Male Tortoiseshell Cat, 237.
